Unit Test Report

Current task allocation: Team ownership. Primary owners are Anand (01-04, 19-20), Bidre (05-08, 17-18), Ayush (09-12, 21-22), Bhavesh (13-16, 23-24). Module support and historical authorship remain distinct.

Team 13 | 9 November 2026 | Final verification on main

The source-file hashes are recorded in source-manifest.json. Raw outputs identify the actual environments and execution times.

Result

121 passed, 0 failures, 0 errors and 0 skipped. Runtime 10.402 seconds. This is the dedicated unit/service subset.

Scope and method

Pytest executed pure metric, task-detection, validation, comparison and sandbox-policy/runner tests. Policy tests use a simulated daemon; runner-script tests use trusted generated model fixtures. Real Docker, HTTP and database integration checks are reported separately in the system/full-suite report.

Test file	Cases	Outcome
tests.test_comparison_security	4	PASS
tests.test_ingestion	16	PASS
tests.test_metric_engine	40	PASS
tests.test_metrics	4	PASS
tests.test_sandbox_policy	44	PASS
tests.test_sandbox_runner_script	13	PASS

Evidence and reproduction

JUnit XML, console log.

Run pytest tests/test_metrics.py tests/test_metric_engine.py tests/test_ingestion.py tests/test_comparison_security.py tests/test_sandbox_policy.py tests/test_sandbox_runner_script.py --junitxml=unit-junit.xml. One upstream SciPy deprecation warning was recorded.
